Mr. Peter D. Venturini  
Chief, Stationary Source Division  
**California Air Resources Board**  
P. O. Box 2815  
Sacramento, CA 95812

Re: **Gas Recovery Systems, Inc. Facilities # B1669 and B1670**  
Minor Permit Revision

Dear Mr. Venturini:

This is to advise you that the Bay Area Air Quality Management District is issuing minor revisions to the Major Facility Review Permits for Gas Recovery Systems, Inc. (Sites #B1669 and #B1670).

The following changes have been made to the permits:

Site # B1669:

- Correct an erroneous future effective date for continuous temperature monitoring at landfill gas fired IC engines in Tables IV-A, IV-B, VII-A, and VII-B
- Correct the corresponding future effective dates for parametric monitoring requirements in Tables IV-A, IV-B, VII-A, and VII-B
- Correct the basis for the annual source testing requirement for landfill gas fired IC engines in Permit Condition # 17777, Part 7
- Correct the landfill name referenced in Permit Condition # 17777, Part 11
- Clarify in Tables VII-A and VII-B that the future IC engine temperature limits will be determined during the first performance test after permit issuance rather than during the District's review of the collection and control system design plan
- Correct an erroneous future effective date for the IC engine temperature limits in Tables VII-A and VII-B

Site # B1670:

- Revise Tables IV-A, IV-B, IV-C, VII-A, VII-B, VII-C, and VIII by adding 40 CFR, Part 62.1115 and deleting all 40 CFR Part 60, Subpart WWW requirements to reflect that EPA adopted the District's Regulation 8, Rule 34 into the State Plan for MSW Landfills and that EPA deleted the District from the Federal Plan for MSW Landfills (effective November 19, 2001)
- Correct the part number for Condition # 16669, Part 12 in Table IV-A
- Correct Condition # 347, Part 8; Condition # 3017, Part 9; and Condition # 16025, Part 12 by deleting the reference to a 40 CFR Part 60, Subpart WWW requirement and by changing the landfill name referenced in these parts

Sections III, IV, and XI were changed in both permits to say that the SIP rules will not be attached to the permit, but rather will be available on EPA's website.

The District has received no comments on the permit revisions from EPA.
